Project Name Project	Gas Leakage Monitoring & Alerting System for Industries
Maximum Marks	2 Marks

PROBLEM STATEMENT

The leakage of gases can be detected by human nearby sometimes, if it has any odour or colour. It is also not possible if it does not have any odor or color. And if there are no humans nearby, it cannot be detected. Thus, a system is which perform gas leakage monitoring and alerting will help to monitor and detect the gas leakage and alert the user to prevent loss is very helpful.
